

WILMS

Women's Interest-Free Loan Management System

Approver Manual — v1.8.0

WILMS Approver Manual

Version: 1.7.3 Role: Approver Classification: Confidential

1. Overview

Approvers review borrower registrations and loan applications, assess risk flags, and make approve/reject decisions. You operate through the Approver Portal.

2. Getting started

Login with approver credentials. Dashboard shows pending review counts and recent decisions.

3. Reviewing registrations

Applications ! Pending Review. Open registration to view:

- Personal details
- Captured documents (side-by-side comparison)
- GPS location
- Registration officer notes

Approve to proceed to group/collector assignment. Reject with documented reason.

4. Assigning group and collector

On approval, assign borrower to a group and collector. Required before loan application.

5. Reviewing loan applications

Loans ! Pending Approval. Review:

- Borrower history and profile
- Requested amount and purpose
- Group assignment
- Risk flags if any

Approve or reject with reason. Approved loans proceed to admin fee collection and disbursement.

6. Risk flags

Risk Flags!' Review flagged borrowers or loans. Assess indicators and document decision. Can approve with flag or reject.

7. Overpayment reviews

Reconciliation!' Overpayment Queue. Review collector submissions with cash request correction.

8. What you cannot do

- Disburse funds directly
- Modify pool capital
- Manage users or settings
- Record field collections

9. Maker-checker principles

- Do not approve registrations you submitted
- Document rejection reasons clearly
- Review documents carefully before approval
- Escalate suspicious cases to admin

10. Best practices

- Process pending queue daily
- Compare ID photo with captured photo
- Verify group assignment matches geography
- Use risk flags consistently

CONFIDENTIAL — For authorized WILMS personnel, executive review, procurement, and official record keeping only.
